Malaysia
- Singapore

OVERVIEW

Malaysia and Singapore are great destinations to study and exceptional places to experience a diverse culture. Singapore is known for its targeted and precise curriculum for students to master core subjects such as science and technology. Moreover, Singapore has strict regulations in choosing their teachers since only the top 5% of graduating students qualify to enter teaching as they get training from the Singapore National Institute of Education. There is also a diverse multicultural and multilingual society that consists of Mandarin, Chinese, Malay, Tamil, and English. Almost similar to Singapore, Malaysia offers world-class higher education with lower tuition fees. Nottingham University which is based in the United Kingdom and Curtin University Sarawak are examples of this world-class higher education. What is more, the English literacy rate in Malaysia is quite high and languages are diverse such as Malay, Chinese, and Tamil. Furthermore, this exchange program is to explore dozens of extraordinary academic and non-academic experiences to achieve students' future goals concerning both culture and education. Therefore, students are expected and able to identify the opportunity and exchange program procedures by participating in SEOI MAL SIN 2022.

You are invited to encourage and empower yourself in SEOI MAL SIN 2022!

BENEFITS

International Legal Certificate

By enrolling in SEOI MAL SIN 2022, students acquire the International Legal Certificate upon the successful completion of all the programs. This certificate acts as proof of the international exposure that is essential for students to achieve professional future careers or further academic plans.

Educational and Cultural Exchange

SEOI MAL SIN 2022 offers students to experience international learning as well as necessary insights about acceptance and understanding of cross-border cultures and communities. In addition, students will be able to gain more understanding of Singaporean and Malaysian history, culture, and tradition. Students also can acquire inspiration and insight from Singaporean and Malaysian students and education that may motivate them in pursuing future goals. Even more, students will be able to deepen their comprehension of foreign educational systems and their cultures, develop their analytical and problem-solving skills, and contribute to discussing global issues according to their interests.

Self-development and Awareness

Students that participate in our SEOI MAL SIN 2022 program will be able to develop their confidence in communicating with foreigners and be prepared to adapt and overcome challenges or differences that are present outside of their comfort zone. In addition, students also will be able to expand their network in the academic and non-academic environment through education and cultural series within SEOI MAL SIN 2022.
